

STAY TIE II

A continuation in part of
application Ser. No. 09/369,203 now Patent No. 6260246

ABSTRACT

The devices sole purpose is to keep the integrity of a knot once it is formed with the shoe lace to keep the shoe securely fastened about the foot. This will be accomplished by precluding the bows and excess laces on each side of the knot from movement or slippage in any direction. The semi attached properties of the device will allow its user to remove it from one shoe and place it on another.
